BE SMART:

Bring lots of water, food, sun block, and a big hat. Leave no trace - be careful of fragile desert plants while walking through sites. This is a delicate ecology and a community that desires to protect it. Help keep HDTS a positive force.

IF YOU GET STUCK IN THE SAND:

Do NOT gun your car - this will only dig you in further. Place car floor mats under your wheels and back out slowly. Another tried and true trick is to let some air out of your tires. If all else fails, dig the sand out a little and wait for help pushing the car out. Patience and cooperation can stop the situation from becoming dire. Or call a tow truck: Bailey's (29 Palms) 760-367-0089, Hill's (Joshua Tree) 760-228-1020, Lefevre's (Pioneertown) 760-364-2846.
